

## REPORT ON BLOOD DONATION CAMP

The Legal Aid and Awareness Committee (LAAC), National Law University, Jodhpur , under its Smart Village Program, organised a Blood Donation Camp on 15th February, 2018 in Surpura village in collaboration with Umaid Hospital, Jodhpur. The Camp was attended by Dr. Nalini Juneja, one of India's esteemed policy thinkers and Dr. Anjali Thanvi, Chairperson of LAAC.

It is a misconception among the villagers that blood donation causes weakness due to which they do not actively participate in blood donation camps. Our volunteers were successful in removing this misconception and making them realize the importance of blood donation. The camp was successful in achieving its objective and thereby led to an enthusiastic response from the residents of the village who turned out in large numbers to donate blood.
